13.8 **Short Selling.** Price restriction is one of the measures relating to Short Selling and will apply to Triggered Stock. The price restriction shall apply through to the end of the following trade day. Short-selling orders on the Triggered Stock placed at a price equal to or below the most recently published price will be rejected by the exchanges. However, if the most recently published price of the Triggered Stock exceeds the execution price of the immediately preceding trade of such Triggered Stock, a short sale at the most recently published price is permitted.

13.9 Tokyo Stock Exchange will compile and release a list of Triggered Stocks on a daily basis. The list will be available on the Tokyo Stock Exchange website at approximately 4:30 p.m. Tokyo time each day (weblink to the list of Triggered Stocks: <http://www.tse.or.jp/english/market/trigger/index.html>).

13.10 Sellers will be required to report a short position to the Japan regulator once its short position ratio exceeds 0.2% of the outstanding issued shares and over 50 board lots. Once the initial reporting requirement at a short position of 0.2% is triggered, filing of an amended report would be required if there is a change in the first decimal place of short position holding ratio. When the short position ratio falls below 0.2%, the seller will report the short position once thereafter.

We reserve the right to change final allocations given to clients in accordance with this procedure after the closing auction is complete. In the event allocations need to be changed we will contact you as soon as practicable after the adjusted allocations have been determined.

This schedule 3 describes the key risk disclosures and other information concerning China Connect. This schedule 3 does not disclose all the risks and other significant aspects of Northbound trading through China Connect. You should ensure that you understand the nature and risks of China Connect and Northbound trading and you should consider carefully (and consult your own advisers where necessary) whether trading in China Connect Securities is suitable for you in light of your circumstances. The decision to trade in China Connect Securities is yours, but you should not trade in China Connect Securities unless you fully understand and are willing to assume the risks associated with China Connect. You acknowledge the risks, and agree to the terms, set out in this schedule 3.

We do not represent that the information set out in this schedule 3 is up to date or comprehensive, and do not undertake to update the information set out in this schedule 3.

Unless otherwise specified, a reference in this schedule 3 to a section is to a section of this schedule 3.

1. PRE-TRADE CHECKING AND ENHANCED PRE-TRADE CHECKING

Under PRC law, the relevant China Connect Market may reject a sell order if an investor does not have sufficient available China Connect Securities in its account. In respect of a sell order of China Connect Securities that is not an SPSA order, SEHK will apply similar checking on all Northbound sell orders at the Exchange Participant level to ensure there is no overselling by any individual Exchange Participant ("**Pre-Trade Checking**"). Enhanced Pre-Trade Checking applies in respect of an SPSA order. You will comply with any requirements relating to Pre-Trade Checking or Enhanced Pre-Trade Checking, as applicable, as mandated by the China Connect Authorities and/or as notified to you by us from time to time.

In particular:

- (a) in relation to Pre-Trade Checking, you will ensure there are sufficient available China Connect Securities in your account to cover any proposed sell order; and
- (b) in relation to Enhanced Pre-Trade Checking, you will in addition ensure that you have been designated a Special Segregated Account with a corresponding investor identification number, there are sufficient available China Connect Securities in such Special Segregated Account to cover any proposed SPSA order and that the China Connect Securities applicable to an SPSA order will be delivered within the timeframe and in the manner as required by us on the relevant settlement day to fulfil such SPSA order.

In respect of:

- (a) any sell order that is not an SPSA order, if we consider that you have not (by the commencement of trading on the Trading Day on which you wish to execute a sell order or any other cut-off time specified by us from time to time) transferred sufficient available China Connect Securities to the Exchange Participant's designated CCASS stock account(s) to cover a proposed sell order; or
- (b) any sell order that is an SPSA order, if we consider that:
 - (i) you do not (by the commencement of trading on the Trading Day on which you wish to execute a sell order or any other cut-off time specified by us from time to time) hold sufficient available China Connect Securities in a relevant Special Segregated Account to cover a proposed SPSA order; and/or
 - (ii) the required number of China Connect Securities will not be delivered from the Special Segregated Account as required by us on a settlement day to fulfil an SPSA order,

we may, as applicable, (but shall not be obliged to) in our absolute discretion:

- (a) reject your sell order (in whole or in part);
- (b) where appropriate arrangements are in place and as permitted by Applicable China Connect Laws, use any China Connect Securities in our (or any other Exchange Participant's) designated CCASS stock account(s) which we hold for ourselves or on behalf of our other customers to fulfil the Pre-Trade Checking requirement in respect of your sell order, in which case you shall reimburse us for any Loss which we incur as a result of buying in or otherwise sourcing the amount of China Connect Securities which you have failed to deliver in respect of your sell order, on such terms and at such price (including any associated fees and expenses) and at such time as we shall determine in our absolute discretion; and/or
- (c) perform any other act which we consider necessary or desirable to comply with Pre-Trade Checking or Enhanced Pre-Trade Checking, as applicable, and/or any relevant Applicable China Connect Laws and/or to cover your shortfall (including but not limited to applying any other China Connect Securities available to us) from any stock borrowing arrangements (to the extent permitted by Applicable China Connect Laws and available to us) or other sources.

In addition, we may in our absolute discretion reject your sell order, whether it be an SPSA order or otherwise, (in whole or in part) if for any other reason we consider that there is or may be non-compliance with any Applicable China Connect Laws and/or that the execution of such order may result in us or any Related Person failing to comply with our or its obligations to any party or under the China Connect Rules. Any risk or Loss resulting from non-compliance or potential non-compliance with Pre-Trade Checking and/or Enhanced Pre-Trade Checking and the related order requirements and/or any relevant Applicable China Connect Laws by you or, to the extent you have caused our or any Related Person's non-compliance, our or such Related Person, shall be borne by you.

2. **SPSA ORDERS – DELIVERY VERSUS PAYMENT**

Notwithstanding that a delivery versus payment mechanism may be offered by SEHK or CCASS for SPSA orders, unless we agree to pre-fund, freely transferable funds may only be credited by the relevant clearing bank to your account with the custodian or settlement agent, as applicable, in accordance with the CCASS operations and procedures after the settlement day upon which the delivery obligations in respect of such SPSA orders are required to be settled. Any risk or Loss resulting from this delay shall be borne by you.

3. **SETTLEMENT**

Northbound trades will follow the A Share settlement cycle. For settlement of China Connect Securities trades, CSDCC will debit or credit the securities accounts of its participants (including HKSCC as the clearing participant) on T day free of payment. We may have settlement arrangements in place different from the CSDCC settlement arrangements. Unless we agree to prefund, settlement of funds relating to such trading will be effected on T+1 day. In the event we agree to prefund the settlement of China Connect Securities trades, (a) we shall retain the funds received from the HKSCC on T+1 day; and (b) you shall reimburse us with respect to any pre-funding provided by us.

Although the transfer of the China Connect Securities precedes the transfer of cash, under the China Connect Service the title to China Connect Securities will not be released until the receipt of confirmation of payment. Accordingly, for purposes of contract notes, the settlement date would be T+1 day when both the China Connect Securities and the cash are settled or, where the purchase was pre-funded, the settlement date would be the date on which the China Connect Securities are released from hold.

4. **QUOTA RESTRICTIONS**

Purchases of China Connect Securities through China Connect are subject to certain quota controls as described below. As a result, there is no assurance that a buy order can be successfully placed through China Connect. There is a daily quota limiting the maximum net value of all Northbound buy trades that can be executed by Exchange Participants on each Trading Day (the "**Daily Quota**"). The Daily Quota may change from time to time without prior notice and investors are advised to refer to the HKEx website and other information published by the HKEx for up-to-date information. If there is a restriction, rejection or suspension of Northbound buying as a result of the Daily Quota being fully utilised on a Trading Day, we will be unable to execute any further buy orders during that Trading Day.

Under the China Connect Rules, investors may sell their China Connect Securities regardless of whether there is a breach of the provisions relating to Daily Quota.

5. **RESTRICTION ON DAY TRADING**

Unless the SEHK otherwise determines, day (turnaround) trading is not permitted on the PRC A Share market. If you buy China Connect Securities on T day, you may be able to sell the shares only on or after T+1 day. Due to Pre-Trade Checking requirements, we may accept an instruction to sell China Connect Securities that were bought on T day only on or after the applicable cut-off time (as notified to you by us from time to time) on T+1 day.

6. **DISCLOSURE OF INTERESTS**

Under PRC laws, rules and regulations, if you hold or control shares (on an aggregate basis, i.e., including both domestically and overseas issued shares of the same PRC Listco (as defined below), whether the relevant holdings are through Northbound trading, QFII/RQFII regime or other investment channels) in a PRC incorporated company which is listed on a China Connect Market (a "**PRC Listco**") up to a certain threshold (as may be specified from time to time by the relevant China Connect Authorities), you must disclose such interest within the period specified by the relevant China Connect Authority, and you must not buy or sell any such shares within the period specified by the relevant China Connect Authority. You must also disclose any substantial change in your holding as required by the relevant China Connect Authority.

Under Hong Kong law, where a PRC incorporated company has both H Shares listed on the SEHK and A Shares listed on a China Connect Market, if an investor is interested in more than a certain threshold (as may be specified from time to time) of *any* class of voting shares (including A Shares purchased through China Connect) in such PRC incorporated company, the investor is under a duty of disclosure pursuant to Part XV of the SFO. Part XV of the SFO does not apply where the PRC incorporated company has not listed any shares on the SEHK.

It shall be your responsibility to comply with any disclosure of interest rules from time to time imposed by the relevant China Connect Authorities and to arrange for any relevant filings.

7. **SHORT SWING PROFIT RULE**

Under PRC laws, rules and regulations, the "short swing profit rule" requires you to give up/ return any profits made from purchases and sales in respect of China Connect Securities of a particular PRC Listco if (a) your shareholding in such PRC Listco exceeds the threshold prescribed by the relevant China Connect Authority from time to time and (b) the corresponding sale transaction occurs within the six months after a purchase transaction, or vice versa. You (and you alone) must comply with the "short swing profit rule".

8. **FOREIGN OWNERSHIP LIMITS**

Under PRC laws, rules and regulations, there is a limit to how many shares a single foreign investor is permitted to hold in a single PRC Listco, and also a limit to the maximum combined holdings of all foreign investors in a

single PRC Listco. Such foreign ownership limits may be applied on an aggregate basis (i.e. across both domestically and overseas issued shares of the same issuer, whether the relevant holdings are through Northbound trading, QFII/RQFII regime or other investment channels). It shall be your responsibility to comply with all foreign ownership limits from time to time imposed by Applicable China Connect Laws. Such legal and regulatory restrictions or limitations may have an adverse effect on the liquidity and performance of an investment in China Connect Securities due to factors such as limitations on fund repatriation, dealing restrictions, adverse tax treatments, higher commission costs, regulatory reporting requirements and reliance on services of local custodians and service providers. As a result, you may suffer Losses through your trading or investment in China Connect Securities.

If we become aware that you have breached (or reasonably believe that you may breach upon execution of further Northbound buy orders) any foreign ownership limits, or if we are so required by any China Connect Authority, including, without limitation, as a result of any Forced-sale Notice issued by a China Connect Market, we will sell any China Connect Securities pursuant to section 9 of the China Connect Terms in order to ensure compliance with all Applicable China Connect Laws. In such case, no China Connect Securities buy orders for the relevant China Connect Securities will be accepted until the relevant China Connect Market informs the relevant SEHK Subsidiary or SEHK that the aggregate foreign shareholding has fallen below a certain percentage. SEHK may determine in its absolute discretion which Exchange Participants and what quantity of China Connect Securities should be subject to a Forced-sale Notice (this is generally likely to be on a "last-in, first-out" basis), and SEHK's (or the relevant SEHK Subsidiary's) own records shall be final and conclusive.

Moreover, under PRC laws, where the aggregate holding of foreign investors exceeds a specified percentage (the "**Cautionary Level**") of the issued shares of a single PRC Listco, upon notification by a China Connect Market to the relevant SEHK Subsidiary, SEHK and the relevant SEHK Subsidiary are required as soon as practicable thereafter to suspend accepting China Connect Securities buy orders in respect of the relevant China Connect Securities. In such circumstances, we may reject your buy orders until the aggregate shareholding of foreign investors has fallen below a specified percentage (the "**Permitted Level**") as advised by the relevant China Connect Market from time to time.

As of the date of these China Connect Terms, the single foreign investor limit is set at 10% of the total outstanding shares of a PRC Listco and the aggregate foreign investor limit is set at 30% of the total outstanding shares of a PRC Listco (while the Cautionary Level and the Permitted Level are set at 28% and 26% respectively of the total outstanding shares of a PRC Listco). Such limits and levels are subject to change from time to time and we shall not be under any obligation to inform you of any such changes relating to foreign ownership limits.

If a PRC Listco is a regulated financial institution, there may be other applicable shareholding restrictions.

9. **CHINA CONNECT MARKET - LISTED SHARES ELIGIBLE FOR NORTHBOUND TRADING**

The relevant China Connect Market - listed shares which are eligible for Northbound trading under China Connect shall be as specified by the China Connect Authorities and published by the SEHK from time to time.

According to applicable China Connect Market Listing Rules, if any China Connect Market-listed company is in the delisting process, or its operation is unstable due to financial or other reasons such that there is a risk of being delisted or exposing investors' interests to undue damage, the China Connect Market-listed company will be earmarked and traded on the risk alert board. Any change to the risk alert board may occur without prior notice. If any China Connect Securities which are eligible for China Connect trading at launch of the programme are subsequently moved to the risk alert board, the securities cease to be China Connect Securities and investors under China Connect will be allowed only to sell the relevant China Connect Securities and are prohibited from further buying. For details concerning the risk alert board, please refer to the relevant China Connect Market Listing Rules and the relevant China Connect Market Risk Alert Board Provisional Trading Arrangement and any other relevant sources from time to time.

10. **SPECIAL CHINA CONNECT SECURITIES**

SEHK will accept or designate securities which cease to meet the eligibility criteria for China Connect Securities as Special China Connect Securities (provided that they remain listed on the relevant China Connect Market). In addition, any securities or options (which are not 'eligible for China Connect trading') received by you as a result of any distribution of rights or entitlements, conversion, takeover, other corporate actions or abnormal trading activities will be accepted or designated by SEHK as Special China Connect Securities. You will be able only to sell, but not to buy, any Special China Connect Securities.

11. **NO OFF-EXCHANGE TRADING AND TRANSFERS**

You, we and any Related Person shall not trade or provide services to facilitate trading of any China Connect Securities otherwise than through the China Connect Market System, and we shall not match, execute or arrange the execution of any sale and purchase instructions or any transfer instructions from you or effect any Non-trade Transfer or settlement of instructions in respect of any China Connect Securities in any manner otherwise than through China Connect in accordance with the China Connect Rules, except in the following circumstances or as otherwise provided by a relevant China Connect Authority:

- (a) stock borrowing and lending of China Connect Securities which are eligible for covered Short Selling and with a tenor of no more than one month;
- (b) stock borrowing and lending of China Connect Securities which are eligible for satisfying the Pre-Trade Checking requirement, with a tenor of one day (and which is not renewable);
- (c) post-trade allocation of China Connect Securities by a fund manager or an asset manager across the funds and/or sub-funds or clients it manages; and
- (d) any other situations specified by the relevant China Connect Market and CSDCC, including but not limited to any Non-trade Transfer as a result or for the purpose of (i) succession, (ii) divorce, (iii) dissolution, liquidation or winding-up of any company or corporation, (iv) donation to a charitable foundation; and (v) assisting in any enforcement action or proceedings of any court, prosecutor or law enforcement agency.

12. **PLACING ORDERS**

Only limit orders with a specified price are allowed pursuant to Applicable China Connect Laws, whereby buy orders may be executed at or lower than the specified price and sell orders may be executed at or higher than the specified price. Market orders will not be accepted.

13. **CHINA CONNECT MARKET PRICE LIMITS**

China Connect Securities are subject to a general price limit of $\pm 10\%$ based on the previous Trading Day's closing price (and a price limit of $\pm 5\%$ where the China Connect Securities are on risk alert). The price limit may be changed from time to time. All orders in respect of China Connect Securities must be within the price limit. Any orders with a price beyond the price limit will be rejected by the relevant China Connect Market.

14. **TAXATION**

The trading of China Connect Securities on the relevant China Connect Market under China Connect currently enjoys a temporary exemption from PRC income tax and PRC value added tax. Dividends derived from China Connect Securities are subject to PRC withholding tax. PRC stamp duty is also payable for transactions in, and inheritance and gifting of, China Connect Securities under China Connect (except for the borrowing and returning of China Connect Securities under covered Short Selling). You will be fully responsible for any Taxes in respect of China Connect Securities including, without limitation, any taxes on capital gains or other PRC taxes, and will indemnify us from and against all Hong Kong and/or PRC Taxes which we may incur or be subject to arising in

connection with any China Connect Securities which you hold, trade or otherwise deal in. Neither we nor any Related Person assume any responsibility for advising on or handling any tax issues, liabilities and/or obligations in connection with China Connect, and neither we nor any Related Person will provide any service or assistance in this regard. Prior to investing in China Connect Securities, you are strongly urged to consult your own tax advisers and counsel with respect to the possible tax consequences to you of such investment since such tax consequences may differ in respect of different investors.

In addition and without prejudice to any other right or remedy which we may have, we shall be entitled in our absolute discretion, without further notice or demand, forthwith, to satisfy any obligation or potential obligation of ours or any Related Person or you to pay or account for any amounts in respect of any Taxes by selling, realising or otherwise dealing with, in such manner as we in our absolute discretion may determine, all or part of any property held by us or any Related Person for any purpose in any of your accounts held with us or any Related Person, and to apply the proceeds in reduction of all or part of your liability to us or any Related Person. Neither we nor any Related Person shall have any liability for any Losses or risks which may result directly or indirectly from any actions taken by us or any Related Person in respect of the foregoing.

15. **CLIENT SECURITIES RULES**

By way of brief background, the Client Securities Rules prescribe how client assets are to be dealt with by all intermediaries and their associated entities. Although the China Connect Securities traded through China Connect are not listed or traded on the SEHK, you will nevertheless have protection under the Client Securities Rules to the extent required by the Applicable China Connect Laws.

16. **INVESTOR COMPENSATION FUND**

Trading in China Connect Securities does not enjoy the protection afforded by the Investor Compensation Fund established under the SFO. Accordingly, unlike the trading of SEHK-listed securities, you will not be covered by the Investor Compensation Fund in respect of any Loss you may sustain by reason of a default by any SFC licensed or registered person.

17. **OWNERSHIP OF CHINA CONNECT SECURITIES**

China Connect Securities are held in CSDCC. HKSCC is a direct clearing participant in CSDCC and China Connect Securities acquired by investors through Northbound trading will be:

- (a) recorded in the name of HKSCC in the nominee securities account opened by HKSCC with CSDCC and HKSCC will be nominee holder of such China Connect Securities; and
- (b) held in custody under the depository of CSDCC and registered in the name of HKSCC in the shareholders' register of the relevant PRC Listco.

HKSCC will record interests in such China Connect Securities in the CCASS stock account of the relevant CCASS Clearing Participant.

Under Hong Kong law, HKSCC will be regarded as the legal owner of such China Connect Securities and will be regarded as holding the beneficial entitlement to the China Connect Securities on behalf of the relevant Clearing Participant(s). Depending on the custody arrangements between a Clearing Participant and its Hong Kong or overseas clients, such Clearing Participant will in turn generally be regarded as holding the beneficial entitlement for such Hong Kong or overseas clients.

Under current PRC regulations, China Connect Securities will be recorded in a nominee account opened by HKSCC with CSDCC and Northbound investors have rights and interests in China Connect Securities acquired through China Connect according to the applicable laws. The CSRC Securities Registration and Settlement Measures, CSDCC Securities Registration Rules, CSDCC Administrative Rules on Securities Accounts, CSDCC China

Connect Rules and the relevant China Connect Market Rules generally provide for the concept of a "nominee holder" and recognise the Northbound investors as the "ultimate owners" of China Connect Securities.

Northbound investors shall generally exercise their rights in relation to China Connect Securities through HKSCC as the nominee holder. As Northbound investors will have actual control over voting rights in respect of such China Connect Securities (either individually or acting in concert with others), Northbound investors are responsible for complying with disclosure obligations and relevant foreign ownership limits under PRC laws and regulations in relation to China Connect Securities acquired through Northbound trading.

However, the precise nature and rights of a Northbound investor as the beneficial owner of China Connect Securities through HKSCC as nominee is less well defined under PRC law. There is lack of a clear definition of, and distinction between, "legal ownership" and "beneficial ownership" under PRC law and there have been few cases in the PRC courts concerning a nominee account structure. Therefore the exact nature and methods of enforcement of the rights and interests of Northbound investors under PRC law are not free from doubt.

To clarify the position, HKEx has published materials to explain the ownership rights of Northbound investors in China Connect Securities and may publish further information from time to time.

A high level summary of certain aspects of the HKEx published materials in respect of the ownership rights of Northbound investors in China Connect Securities is set out below as an initial reference. You should ensure you read and understand all relevant materials published by the HKEx from time to time including, without limitation, any China Connect FAQ for Investors. We make no representation or warranty in respect of the ownership rights of Northbound investors in China Connect Securities and/or the HKEx published materials. You should also make your own investigation and assessment, including, without limitation, in respect of applicable Hong Kong and PRC laws, after consulting with your legal advisers.

High level summary of certain aspects of the HKEx published materials

- (i) It is the Hong Kong and overseas investors as the ultimate investors (rather than any broker, custodian or intermediary through whom such investors hold the China Connect Securities) who would be recognised under PRC laws and regulations as having beneficial ownership in the China Connect Securities. The CCASS China Connect Rules confirm that all proprietary interests in respect of China Connect Securities held by HKSCC as a nominee holder belong to participants of CCASS or their clients, as the case may be, and this is the case whether HKSCC is solvent or insolvent.
- (ii) Certain provisions of PRC law provide a sound legal basis confirming that CSDCC's records (to be reflected in the registers of shareholders of the relevant PRC Listcos) constitute conclusive evidence with respect to a person's holding of securities in a PRC Listco. As HKSCC holds the China Connect Securities as nominee holder only and its holdings are recorded in the registers maintained by CSDCC and PRC Listcos in accordance with PRC Law, the relevant records should serve as good evidence of ownership of China Connect Securities at the HKSCC level.
- (iii) It is HKSCC's understanding that when PRC law refers to "exercising rights" in relation to China Connect Securities, it refers to dealings between shareholders and PRC Listcos covering the right to:
 - (A) call and participate in shareholders' meetings;
 - (B) propose matters for voting at shareholders' meetings;
 - (C) exercise voting rights or control over the PRC Listco through voting at shareholders' meetings;

- (D) subscribe for allocated rights and entitlements; and
 - (E) receive dividends and other distributions declared by the PRC Listco.
- (iv) As set out in the CCASS China Connect Rules, HKSCC, as nominee holder, will (subject to applicable PRC laws) assert or exercise the rights listed in sub-paragraphs (A) to (E) of paragraph (iii) above for or on behalf of participants of CCASS and the underlying beneficial owners of China Connect Securities under the China Connect programme. These cover HKSCC's obligations to distribute company announcements and communications, attend shareholders' meetings and obtain voting instructions and instructions to deal with entitlements, dividends, distributions and various kinds of corporate actions of PRC Listcos. Such obligations are discharged by HKSCC seeking and acting on the instructions of participants of CCASS which, in turn seek instructions from their clients or the beneficial owners.
- (v) HKSCC is not currently aware of any express provision in PRC law which prohibits a beneficial owner or a Hong Kong or overseas investor from taking legal action directly in the PRC courts to enforce its rights, or which provides an express framework for a beneficial owner or Hong Kong or overseas investor to take such legal action. However, HKEx notes that under the PRC Civil Procedure Law a claimant in a legal action shall be a person who has a direct interest in the relevant case, and therefore there are grounds to believe that, if a Hong Kong or overseas investor is able to show that it is the beneficial owner (such as certification of its beneficial ownership) and that it has a direct interest in the matter, it may be able to take legal action in its own name to enforce its rights in the PRC courts directly. HKEx also notes that there are a number of cases where the PRC courts have recognised the rights of beneficial owners based on policy and general legal principles.
- (vi) However, regardless of whether a beneficial owner of China Connect Securities under China Connect is legally entitled to bring legal action directly in the PRC courts against a PRC Listco to enforce its rights, as set out in the CCASS China Connect Rules, HKSCC is prepared to provide assistance to the beneficial owners of China Connect Securities where necessary:
- (A) upon the request of the relevant participant of CCASS and after receiving the necessary information, documentation and indemnities as HKSCC may reasonably require from the participant of CCASS, HKSCC will provide certification to CSDCC for the purpose of providing evidential proof of the CCASS participant's or its client's holding in China Connect Securities at the relevant time; and
 - (B) upon the request of the participant of CCASS, HKSCC will assist the participant of CCASS or its client in bringing the legal action in the PRC in the manner as may be required under PRC law, after having regard to its statutory duties and subject to such conditions as HKSCC may reasonably require (including payment of fees and upfront costs and indemnities to the satisfaction of HKSCC).

HKEx notes that any beneficial owner who decides to take legal action is responsible for seeking its own independent legal advice to satisfy itself and HKSCC that a cause of action exists and the beneficial owner should be prepared to conduct the action and take up all costs in relation to the action, including providing HKSCC with indemnities and legal representation in proceedings.

- (vii) As HKSCC is expressly recognised as the nominee holder of all the China Connect Securities acquired by Northbound trading by the China Connect Rules issued by the CSRC and the CSDCC China Connect Rules, HKEx notes that there is clear support under the China Connect Rules that certification issued by HKSCC as nominee holder would be treated as lawful proof of a beneficial owner's holdings of the relevant China Connect Securities.

- (viii) HKEx notes that after the clearance and settlement of a buy transaction on China Connect Securities through Northbound trading, such securities are held via book entry at different levels as follows:
 - (A) in an omnibus stock account in the name of HKSCC at the CSDCC level;
 - (B) in the relevant CCASS participant's stock account in CCASS; and
 - (C) depending on the relevant arrangements, in the books and records of participants of CCASS including, as the case may be, as separate client accounts.
- (ix) HKEx notes that on the insolvency of HKSCC, the China Connect Securities will not be regarded as the general assets of HKSCC under Hong Kong and PRC law and will not be available to the general creditors of HKSCC and that CSDCC and the PRC courts will recognise the liquidator of HKSCC, duly appointed pursuant to Hong Kong law, as the rightful entity to deal with China Connect Securities in the place of HKSCC.

You should conduct your own review of the HKEx published materials and the applicable China Connect Rules from time to time. You should also consult your own legal advisers to make your own assessment of your rights as a Northbound investor in China Connect Securities.

18. NO MANUAL TRADE OR BLOCK TRADE

There will be no manual trade facility or block trade facility for Northbound trading under China Connect.

19. AMENDMENT OF ORDERS AND LOSS OF PRIORITY

Consistent with the current practice in the PRC, if an investor engaged in Northbound trading wishes to amend an order, the investor must first cancel the original order and then input a new one. Accordingly, order priority will be lost and, subject to the Daily Quota restrictions (see section 4 above), the subsequent order may not be filled on the same Trading Day.

20. RISK OF CSDCC DEFAULT

CSDCC has established a risk management framework and measures that are approved and supervised by CSRC. If CSDCC (as the host central counterparty) defaults, HKSCC may (but shall have no obligation to) take any legal action or court proceeding to seek recovery of the outstanding China Connect Securities and monies from CSDCC through available legal channels and through CSDCC's liquidation process, if applicable. As CSDCC does not contribute to the HKSCC guarantee fund, HKSCC will not use the HKSCC guarantee fund to cover any residual Loss as a result of closing out any of CSDCC's positions. HKSCC will in turn distribute China Connect Securities and/or monies recovered to clearing participants on a pro-rata basis as prescribed by the relevant China Connect Authorities. We in turn will be distributing China Connect Securities and/or monies only to the extent recovered directly or indirectly from HKSCC. Although the likelihood of a default by CSDCC is considered to be remote, investors should be aware of this arrangement and of this potential exposure before engaging in Northbound trading.

21. RISK OF HKSCC DEFAULT

Our provision of services pursuant to these China Connect Terms also depends upon the performance by HKSCC of its obligations. Any action or inaction of HKSCC or a failure or delay by HKSCC in the performance of its obligations may result in a failure of settlement, or the loss, of China Connect Securities and/or monies in connection with them and you may suffer Losses as a result. Neither we nor any Related Person shall have any responsibility or liability for any such Losses.

22. **SCRIPLESS SECURITIES**

China Connect Securities are traded in scripless form, and accordingly China Connect Securities may not be physically deposited into and/or withdrawn from CCASS.

23. **COMPANY ANNOUNCEMENTS ON CORPORATE ACTIONS**

Any corporate action in respect of China Connect Securities will be announced by the relevant issuer through the relevant China Connect Market website and certain officially appointed newspapers. HKSCC will also record all corporate actions relating to China Connect Securities in CCASS and inform its clearing participants of the details via the CCASS terminals as soon as practicable on the announcement date. Investors engaged in Northbound trading may refer to the relevant China Connect Market website and the relevant newspapers for the latest listed company announcements or, alternatively, the HKEx website's China Stock Markets Web (or such other replacement or successor web-page from time to time) for corporate actions in respect of China Connect Securities issued on the previous Trading Day. Investors should note that the China Connect Market-listed issuers publish corporate documents in Chinese only and English translations will not be available.

In addition, HKSCC will endeavour to collect and distribute cash dividends relating to China Connect Securities to clearing participants in a timely manner. Upon receipt of the dividend amount, HKSCC will to the extent practicable arrange to distribute to relevant clearing participants on the same day.

Following existing market practice in the PRC, investors engaged in Northbound trading will not be able to attend shareholder meetings by proxy or in person, unlike the current practice in Hong Kong in respect of SEHK-listed shares.

We do not and cannot ensure the accuracy, reliability or timeliness of any company announcements of corporate actions, and neither we nor any Related Person accepts any liability (whether in tort or contract or otherwise) for any Loss arising from any errors, inaccuracies, delays or omissions or any actions taken in reliance thereon. We expressly disclaim all warranties, expressed or implied, as to the accuracy of any company announcement or as to the fitness of the information for any purpose.

24. **AVERAGE PRICING ACROSS FUNDS FOR FUND MANAGERS**

Where you act as (i) a fund manager (on behalf of more than one fund) or (ii) an asset manager (on behalf of more than one client), and you pre-allocate China Connect orders across such funds or clients which you manage, we may offer Average Pricing for such orders notwithstanding such orders may be executed at different times during the same Trading Day. Where Average Pricing applies, each fund or client will be allocated China Connect Securities (or their proceeds) at the same averaged price, which may be higher or lower than the price which such fund or client would have paid or received had the orders been processed individually and in the order submitted directly or indirectly to us. Neither we nor any Related Person will be responsible for any such difference in pricing or any Loss or risk arising from the application of Average Pricing.

25. **DISCLOSURE OF INFORMATION AND PUBLICATION OF TRADE INFORMATION**

The SEHK may require us to provide information on your profile, and the type and value of your orders in relation to Northbound trading of China Connect Securities and the trades which we executed for you, at such intervals and in such form as SEHK may specify from time to time for purposes of the publication, dissemination or public distribution of aggregated information in respect of China Connect Securities trades under China Connect, trading volumes, investor profiles and other related data.

26. **RETENTION OF INFORMATION**

You acknowledge and accept that we will be required under the China Connect Rules to keep records for a period of not less than 20 years of (a) all orders and trades executed on your behalf; (b) any instructions received from

you; (c) your account information in relation to Northbound trading; and (d) all relevant information concerning margin trading and stock borrowing and lending of any China Connect Securities (including, without limitation, in respect of any such margin trading, the relevant securities margin trading arrangement and the funds provided).

27. **CLIENT ERROR**

Neither we nor any Related Person shall be liable for any Loss or consequential loss, damage or expense suffered by an investor as a result of any trading based on the investor's instructions. We will not be able to unwind any trade, and investors should also take note of the settlement arrangements in respect of China Connect Securities under China Connect, including but not limited to quota restrictions, which may affect your ability to mitigate the consequences of any error trades.

The China Connect Rules generally prohibit any off-exchange trading or transfers. However, transfers may be permitted between Exchange Participants and their clients to rectify an error trade in limited circumstances, although there is a lack of clarity as to the circumstances in which such transfers may be permitted. Exchange Participants who perform a Non-trade Transfer to rectify an error trade will be required to submit to the SEHK an error trade report together with supporting documents explaining how the error was made and providing details of the Non-trade Transfer. SEHK has the power to disallow a particular Exchange Participant to conduct Non-trade Transfers for error trade rectification if the SEHK has reasonable cause to suspect or to believe that the Exchange Participant may abuse or may have abused such rectification arrangements or may have used such rectification arrangements to circumvent the prohibition against off-exchange trades or transfers. The SEHK may provide error trade reports and related information to the SFC and the relevant China Connect Market. Exchange Participants are warned by the SEHK not to misuse this arrangement to effect off-exchange trades or transfers which are otherwise disallowed under the relevant China Connect Rules. We shall have absolute discretion to determine whether to conduct any transfer to rectify any error trade and shall have no obligation to do so. Neither we nor any Related Person shall have any liability for any Losses which may result directly or indirectly from any error trade or any refusal to conduct a transfer to correct an error trade.

28. **OPERATION OF CHINA CONNECT SERVICE/NOVELTY OF CHINA CONNECT MARKET SYSTEM**

The SEHK or the relevant SEHK Subsidiary (after consulting with the SEHK) may, under certain circumstances as specified in the SEHK rules and/or whenever the SEHK determines that it is appropriate and in the interest of a fair and orderly market to protect investors, temporarily suspend or restrict all or part of the order-routing and related supporting services with regard to all or any Northbound trading of China Connect Securities, and for such duration and frequency as the SEHK may consider appropriate. You will not be able to buy or sell China Connect Securities on the SEHK through China Connect during any period in which trading of China Connect Securities is suspended. In particular, you should note that while trading of China Connect Securities is suspended by the SEHK, trading of such China Connect Securities may continue on the relevant China Connect Market. You may remain exposed to fluctuations in the price of China Connect Securities caused by trading on the relevant China Connect Market during the period when trading of such China Connect Securities is suspended by the SEHK.

The SEHK has absolute discretion to change the operational hours and arrangements of the China Connect Service at any time and without advance notice, whether on a temporary basis, due to operational needs, inclement weather, under emergency situations or otherwise. Moreover, the SEHK or the relevant SEHK Subsidiary (with the agreement of the SEHK) may cease the provision of the China Connect Northbound trading service permanently.

Such suspension, restriction or cessation will affect our ability to accept and process your orders and you are advised to refer to the HKEx website and other information published by the HKEx for up-to-date information. There can be no assurance that your orders will be accepted or processed, notwithstanding that China Connect Securities may be traded through other channels including, without limitation, by PRC investors on the relevant China Connect Market.

Further, the SEHK rules state that, where any H Shares with corresponding A Shares eligible as China Connect Securities are suspended from trading on the SEHK, but the corresponding A Shares are not suspended from trading on the relevant China Connect Market, the service for routing the China Connect sell orders and China Connect buy orders for such A Shares to the relevant China Connect Market for execution will normally remain available. However, the SEHK may, in its discretion, restrict or suspend such service without prior notice and your ability to place sell orders and buy orders may be affected.

In addition, the China Connect Market System is a new platform for trading of China Connect Securities under China Connect. We provide trading services based on the China Connect Market System which is operated by the relevant China Connect Market. We are not responsible for any delay or failure caused by the China Connect Market System and investors accept all risks arising from trading China Connect Securities through the China Connect Market System. Neither we nor any Related Person shall be responsible or held liable for any Loss directly or indirectly suffered by you arising from or in connection with the China Connect Service or the CSC through Northbound trading including, without limitation, the following:

- (a) a suspension, restriction or cessation of the China Connect Service or the CSC, or any inability to access or use the CSC or the China Connect Service;
- (b) any special arrangement put in place or any action, step or measure taken or not taken to deal with an emergency, including but not limited to the cancellation of any or all China Connect orders input by Exchange Participants;
- (c) any suspension, delay, interruption or cessation of trading of any China Connect Securities on the relevant China Connect Market or through the SEHK;
- (d) any delay, suspension, interruption or order cancellation of any China Connect Securities as a result of the hoisting of a Typhoon Signal No. 8 or above or the issuance of the Black Rainstorm Warning in Hong Kong;
- (e) any delay or failure to route any China Connect orders or any delay or failure to send any order cancellation requests or to provide the China Connect Service, due to any system, communication or connection failure, power outage, software or hardware malfunction or other event beyond the control of the SEHK, us or any Related Person;
- (f) any circumstance in which a China Connect order which a China Connect Exchange Participant has requested to be cancelled is not cancelled for any reason whatsoever;
- (g) any delay, failure or error of any China Connect Market System or any system upon which the relevant SEHK Subsidiary, we or any Related Person is/are reliant on in providing the China Connect Service; and
- (h) any delay or failure to execute, or any error in matching or executing, any China Connect order due to any reason beyond the control of the SEHK, HKEx or the relevant SEHK Subsidiary, us or any Related Person (including, without limitation, any action or decision taken or made, or not taken or made, by the relevant China Connect Market, any China Connect Authority or any other relevant governmental or regulatory body).

If there is any delay or failure to send any order cancellation request in any circumstance described in section 28(e), you shall, in the event such order is matched and executed, remain responsible to fulfil any settlement obligations in respect of such transaction.

29. **OPERATIONAL HOURS**

The SEHK has absolute discretion to determine from time to time the operational hours of the China Connect Service, and will have absolute discretion to change the operational hours and arrangements of the China

Connect Service at any time and without advance notice, whether on a temporary basis or otherwise. We shall not be under any obligation to inform you of any such determination by the SEHK as to the operational hours of the China Connect Service.

Where, for example, there is any price sensitive information relating to a PRC Listco during a time when the China Connect Service is not in operation, the A Shares of the PRC Listco may continue to trade on the relevant China Connect Market and the price of such A Shares may move significantly. In such case, Northbound investors will not be able to trade in such shares until the next available Trading Day under China Connect.

30. **MARGIN TRADING**

Subject to certain conditions prescribed by the China Connect Authorities, Hong Kong and overseas investors may conduct margin trading in China Connect Securities determined by the relevant China Connect Authorities to be eligible for margin trading ("**Eligible Margin Trading Securities**"). The HKEx will from time to time publish a list of Eligible Margin Trading Securities. The relevant China Connect Market may suspend margin trading activities in any specific A Share if the volume of margin trading activities in such A Share exceeds a threshold determined by the relevant China Connect Market and resume margin trading activities when the volume of margin trading activities drops below a prescribed threshold. Where the SEHK is notified by the relevant China Connect Market that a suspension or resumption involves securities on the list of Eligible Margin Trading Securities, the HKEx will disclose such information on its website. In such circumstances, any margin trading (except for margin trading in respect of China Connect Securities buy orders) in the relevant China Connect Securities shall be suspended and/or resumed accordingly. Each relevant China Connect Market has reserved the right to require (at some point in time, margin trading orders to be flagged as margin trading orders when routed to China Connect. Neither we nor any Related Person shall have any obligation to update you in respect of the list of Eligible Margin Trading Securities or any restrictions or suspensions in respect of margin trading from time to time.

We do not currently provide any margin trading services to you in respect of China Connect Securities.

31. **RIGHTS ISSUANCES**

Where a Hong Kong or overseas investor receives any form of entitlement securities from the issuer of China Connect Securities, if such entitlement securities:

- (a) are China Connect Securities, Hong Kong and overseas investors will be allowed to buy and sell the entitlement securities through China Connect;
- (b) are not China Connect Securities but are RMB-denominated securities listed on any relevant China Connect Market, Hong Kong and overseas investors may be permitted to sell the entitlement securities through China Connect but will not be permitted to buy such entitlement securities;
- (c) are China Connect Market-listed securities but are not traded in RMB, Hong Kong and overseas investors will not be allowed to buy or sell the entitlement securities through China Connect. HKEx has stated that the relevant China Connect Market and the SEHK will consult each other to agree on the appropriate treatment of the entitlement securities; and
- (d) are not listed on any relevant China Connect Market, Hong Kong and overseas investors will not be allowed to buy or sell the entitlement securities on China Connect unless and until appropriate arrangements (if any) have been provided by HKSCC. It is possible that no such arrangements will be provided.

32. **ODD LOT TRADING**

Odd lot trading in China Connect Securities is available only for sell orders and all odd lots must be sold in one single order. A board lot order may be matched with different odd lot sell orders, resulting in odd lot trades. Board lot and odd lot orders are matched on the same platform on China Connect and subject to the same share price. The maximum order size is 1 million shares and the tick size is uniformly set at RMB 0.01.

33. **SHORT SELLING**

We are not currently able to accept any sell order which would be subject to the China Connect Rules in relation to the Short Selling. Accordingly, you shall not place, and we will not accept:

- (a) Short Selling orders; or
- (b) Uptick Long Sale orders.

By instructing us to undertake any sell order on China Connect, you represent and undertake on a continuing basis (without prejudice to any rights and remedies which we may have under any existing terms that we have with you relating to China Connect, under any other contract or in law), that:

- (a) any order that you place with us in relation to China Connect Securities is not, and will not be, a Short Selling order or an Uptick Long Sale order; and
- (b) you will immediately inform us if this representation is not correct or has become misleading, or you have not complied, or will not comply, with any of your obligations under these China Connect Terms.

You should note that naked Short Selling is prohibited for Northbound trading. Covered Short Selling of China Connect Securities is permitted subject to certain requirements in the China Connect Rules. However, we will not facilitate covered Short Selling of China Connect Securities and/or any Uptick Long Sale, until such time as we notify you otherwise.

If you do instruct us to undertake any Short Selling orders or Uptick Long Sale orders on your behalf, you shall be responsible to us and any Related Person for any risk or Loss resulting from such instruction.

34. **STOCK BORROWING AND LENDING**

Stock borrowing and lending are permitted for eligible China Connect Securities as specified by the relevant China Connect Market for the purposes of (a) covered Short Selling and (b) satisfying the Pre-Trade Checking requirement. Special China Connect Securities are not eligible for stock borrowing and lending for the purpose of covered Short Selling (but are eligible for the purpose of satisfying the Pre-Trade Checking requirement). The relevant China Connect Market will determine a list of eligible China Connect Securities for stock borrowing and lending. Stock borrowing and lending of eligible China Connect Securities will be subject to restrictions set by the SEHK and the relevant China Connect Market, including but not limited to the following:

- (a) stock borrowing and lending transactions for the purpose of covered Short Selling shall have a duration of not more than one month;
- (b) stock borrowing and lending transactions for the purpose of satisfying the Pre-Trade Checking requirement shall have a duration of not more than one day (and rollover is not permitted);
- (c) stock lending will be restricted to certain types of persons to be determined by the relevant China Connect Market; and
- (d) stock borrowing and lending activities will be required to be reported to the SEHK.

Only certain persons are eligible to lend China Connect Securities in stock borrowing and lending arrangements concerning China Connect Securities.

An Exchange Participant is required to file a monthly report to the SEHK providing details of its stock borrowing and lending activities with respect to China Connect Securities. This may include (amongst others) details of the borrower, lender, amount of shares borrowed/lent, amount of shares outstanding and date of borrowing/returning.

Where the prescribed proportion of stock borrowing and lending of any China Connect Securities exceeds the limit prescribed by the relevant China Connect Market, the relevant China Connect Market may suspend stock borrowing and lending of such China Connect Securities and require the relevant SEHK Subsidiary to suspend placement of covered Short Selling orders relating to such China Connect Securities. If and when the prescribed proportion of stock borrowing and lending falls below the prescribed limit, the relevant China Connect Market may resume stock borrowing and lending of such China Connect Securities and notify the relevant SEHK Subsidiary that it may resume acceptance of covered Short Selling orders relating to such China Connect Securities.

You are advised to refer to the relevant provisions from time to time governing stock borrowing and lending of China Connect Securities under the SEHK China Connect Rules and the Applicable China Connect Laws. Neither we nor any Related Person shall have any obligation to update you in respect of any suspension of stock borrowing and lending or any change to the relevant SEHK China Connect Rules or Applicable China Connect Laws.

We do not currently provide any stock borrowing and lending services to you in respect of China Connect Securities.

35. **RISKS ASSOCIATED WITH INVESTING IN CHINA CONNECT SECURITIES**

PRC-related risks

Investing in the PRC, an emerging market, involves special considerations and risks, including without limitation greater price volatility, less developed regulatory and legal framework, economic, and social and political instability.

Market risk

The market value of China Connect Securities and the income from them may go down as well as up. There can be no assurance that you will achieve profits or avoid losses from trading China Connect Securities, significant or otherwise. The return you receive from China Connect Securities (if any) will fluctuate in response to changes in capital appreciation and/or income relating to such China Connect Securities. Furthermore, China Connect Securities may experience volatility and decline depending on market conditions. Through trading China Connect Securities, you are exposed to various forms of risk, including (for example), interest rate risks (risks of falling China Connect Securities values in a rising interest rate market), income risks (risks of falling incomes from China Connect Securities in a falling interest rate market) and credit risk (risk of a default by an issuer of China Connect Securities).

Possible business failure risk

In the current economic environment, global markets are experiencing very high levels of volatility and an increased risk of corporate failures. The insolvency or other corporate failure of any issuer of China Connect Securities may have an adverse effect on your investment. You may lose money by investing in China Connect Securities.

Equity risk

Investing in China Connect Securities may offer a higher rate of return than investing in short term and longer term debt securities. However, the risks associated with investments in China Connect Securities may also be higher, because the investment performance of China Connect Securities depends upon factors which are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. The fundamental risk associated with any equity portfolio is the risk that the value of the investments it holds might suddenly and substantially decrease in value.

Dividend risk

Whether an issuer of China Connect Securities will pay distributions is subject to such underlying issuer's dividend policy. Dividend payment rates in respect of China Connect Securities may depend on factors including general economic conditions and the financial positions of the relevant issuers. There can be no assurance that any dividends or distributions in respect of China Connect Securities will be declared or paid.

Liquidity risks

Although China Connect Securities are listed for trading on the relevant China Connect Market and available for trading through the SEHK by China Connect, there can be no assurance that an active trading market for China Connect Securities will develop or be maintained. If spreads on China Connect Securities are wide, this may adversely affect your ability to dispose of China Connect Securities at the desired price. If you need to sell China Connect Securities at a time when no active market for them exists, the price you receive for your China Connect Securities — assuming you are able to sell them — is likely to be lower than the price received if an active market did exist.

General legal and regulatory risk

You must comply with all Applicable China Connect Laws. Furthermore, any change in any Applicable China Connect Laws may have an impact on the market sentiment which may in turn affect the performance of China Connect Securities. It is impossible to predict whether such an impact caused by any such change will be positive or negative for China Connect Securities. In the worst case scenario, you may lose a material part of your investments in China Connect Securities.

Currency risk

RMB is not yet freely convertible in Hong Kong, and is subject to foreign exchange controls and restrictions. Particularly, conversion of RMB through banks in Hong Kong is subject to certain restrictions. It may be difficult for investors to convert RMB into Hong Kong dollars or other currencies or vice versa at any specific time, and conversion will be subject to conversion costs and such costs and timings for conversion may not be of your preference.

In addition, the value of RMB against Hong Kong dollars or other foreign currencies may be affected by a wide range of factors. There is no guarantee that RMB will not depreciate. A depreciation of RMB may result in a decrease in the market value of RMB securities and the realisation price of RMB securities. Non-RMB based investors who are trading in RMB securities may also sustain loss in the event that they subsequently convert any RMB proceeds back to Hong Kong dollars or other base currencies.

There are also significant restrictions on the remittance of RMB into and out of the PRC. If the issuer of RMB securities is not able to remit RMB to Hong Kong or make distributions in RMB due to exchange controls or other restrictions, the issuer may make distributions (including dividends and other payments) in other currencies. Investors may therefore be exposed to additional foreign exchange risk and liquidity exposures.

The liquidity and trading price of China Connect Securities may be adversely affected by the limited availability of RMB outside the PRC and restrictions on the conversion of RMB. These factors may affect the liquidity of RMB for investors and accordingly adversely affect the market demand for China Connect Securities.

36. **RISKS ASSOCIATED WITH INVESTING IN CHINEXT SECURITIES**

You should be aware that ChiNext Securities may carry a different and higher risk profile compared with China Connect Securities traded on the SZSE Main Board Market or the SZSE SME Board Market. In particular, and without limitation, you should note the differences listed below.

Differences in regulations

The objective of ChiNext is to promote the development of innovative enterprises and other growing start-ups. Accordingly, the rules and regulations regarding securities on ChiNext are less stringent in terms of profitability and share capital than those in respect of the SZSE Main Board Market or the SZSE SME Board Market.

Emerging nature of ChiNext companies

Given the emerging nature of companies listed and traded on ChiNext, there is a risk that the securities traded on ChiNext may be susceptible to higher market volatility than securities traded on the SZSE Main Board Market or the SZSE SME Board Market.

Listed companies on ChiNext are usually in a preliminary stage of development. They are therefore less mature than companies listed on the SZSE Main Board Market and the SZSE SME Board Market, they have a smaller scale and shorter operating history and their stability and resistance to market risks may be lower. Hence, they are subject to higher fluctuation in stock prices as the performance of these companies changes. They are subject to higher risks and higher turnover ratios than companies listed on the SZSE Main Board Market or the SZSE SME Board Market.

Delisting risk

The companies listed on ChiNext are generally less resistant to market risks and may experience more fluctuations in their performance. It may be more common for listed companies in the ChiNext market than companies listed on the SZSE Main Board Market and the SZSE SME Board Market to delist and such delistings may occur earlier in respect of securities listed and traded on ChiNext than those on the SZSE Main Board Market and the SZSE SME Board Market.

Valuation risk

Conventional valuation methods may not be entirely applicable to companies listed on ChiNext due to the risky nature of the industries in which these companies may operate. There are fewer circulating shares on ChiNext and stock prices may be more susceptible to manipulation and may experience higher fluctuation upon market speculation. Due to the emerging nature of ChiNext and the fact that stocks traded on ChiNext have less of a track record on profitability, such stocks may be overvalued and such high valuation may not be sustainable.
